

ENAWHITE

ENAWHITE SYSTEM

QUICK
EASY • SAFE

With Ena White you can start smiling! Ena White helps to eliminate stains due to smoking, coffee and medication (such as tetracycline) and gives you a new bright, white smile. Neutral pH formula to protect the natural enamel.

ENA WHITE SYSTEM

A whiter, brighter smile can give you more confidence, making you more attractive and improving social relationships. Tooth whitening is requested increasingly for patients of every age, gender and social status, to improve their smile: realize the dreams of your patients with **Ena White Light!**
